Questions from Committee Members and Responses:

SEN. MCGEE asked **Ms. Pichette** for a law explanation. **Ms. Pichette** replied that the major function of the financial examination of the insurers was to see that the insurers were accredited through the National Organization of Insurance Companies. She further stated that the Indemnification

Agreements were a contract between the insurer and the financial organization. **Ms. Pichette** went on to say that the use of the word "any" might make the bill too generic and that they may need to use more restrictive language.

SEN. MCGEE asked **Ms. Pichette** to explain an Indemnification Contract. **Ms. Pichette** replied that an Indemnification Contract insures that a loss would be covered by the financial institution.

SEN. MCGEE asked **Ms. Pichette** if the Auditor's Office or the insurer kept the audit records. **Ms. Pichette** responded that insurer records are kept with the insurer along with the Indemnification Agreement.

SEN. PERRY asked **Ms. Pichette** what a loss of securities meant. **Ms. Pichette** replied that the intent was to clarify the loss would be a restricted loss.

SEN. PERRY further asked **Ms. Pichette** if the indemnification would cover bank failures and losses due to poor investments. He continued by asking if it required protection of one entity's assets over another entity. He then asked if the FDIC was an insurer. **Ms. Pichette** stated that the FDIC was an insurer. She went on to say that she could not answer the rest of the question. She informed the Committee that she would gather information so that she could respond to the rest of the questions. She continued by stating that the loss of an insurer's assets would be insured to a specific level.

SEN. MANGAN asked **Ms. Pichette** if the bill were basically a "due diligence" bill. **Ms. Pichette** answered that it provided a way so that the insuring companies were not left holding the bag.

SEN. O'NEIL inquired of **Ms. Pichette** if a bank were to go broke, would the insurance company be paid before the asset holder. **Ms. Pichette** informed the Committee that she needed to gather more information in order to respond to the question.

SEN. CURTISS asked **Ms. Pichette** if the lack of an Indemnification Agreement hindered the Department. **Ms. Pichette** indicated that she did not feel that it hindered the Department, however, she could not say for sure.

CHAIRMAN WHEAT inquired of **Ms. Pichette** if the insurers were protected. He further stated that he was having trouble understanding the use of the wording "hold in custody." **CHAIRMAN**

WHEAT further asked if it was the piece of paper that was being insured, as the actual asset would not be lost. **Ms. Pichette** indicated that she did not have a response for the question.

CHAIRMAN WHEAT then asked **Ms. Pichette** about government bonds and what would happen should the insured agency be destroyed. He continued by inquiring how the Indemnification Agreement would help and explaining the need for a better understanding of what was being indemnified. **Ms. Pichette** responded that it was the actual assets which were being indemnified.

SEN. O'NEIL inquired of **Ms. Pichette** if a security could be a stock and if a stock could incur a loss. He further asked if the Indemnification Agreement would indemnify a loss by theft. **Ms. Pichette** responded that the Auditor's Office was intending to assure that an agreement was in place. She continued by stating that it was apparent that the bill was not clear.

SEN. MCGEE asked **Ms. Pichette** if she could go back to the Auditor's Office, review the bill, and come back to the Committee with clearer language. He went on to request that the bill be reworded so as to address the issue of preference of an institution's assets over an individual's assets. **Ms. Pichette** indicated that she would do as the Committee requested.
